## IAVM Governance Policies

### IAVM Governing Policies

Our Governing Policies will enable the IAVM governing board to effectively lead, direct, inspire and control the outcomes and operations of the association through a set of very carefully crafted policy statements and our effective monitoring of them.

The policies are grouped into four categories, each serving a distinct purpose. The four categories are:

**RESULTS:** These are our statements of outcomes for ALL members in the International Association of Venue Managers. The Results policies become the CEO's and the organization's performance targets and form the basis for judging organizational and CEO performance.

**OPERATIONAL EXPECTATIONS:** These policies define both the nonnegotiable expectations and the clear boundaries within which the CEO and staff must operate. They articulate the actions and decisions the board would find either absolutely necessary ... or totally unacceptable.

**GOVERNANCE PROCESS:** We defined our own work and how it will be carried out. These policies clearly state the expectations the board has for individual and collective behavior.

**BOARD-CEO DELEGATION:** We have defined in policy how authority is delegated by the Board to our point of connection – the CEO - and how the CEO's performance will be evaluated.

Our Governing Policies offer a logical governing process for the IAVM Board. We are committed to use them well in order to:

1. Eliminate confusion between board and CEO roles;
2. Focus on the Results for our members;
3. Free the CEO and staff to do their jobs without the board's intrusion into day-to-day management decisions;
4. Maintain oversight over operational decisions in a manner that retains the board's role at the governance level.

## IAVM Governance Policies

### Governing Policies of the Board of Directors

**Governance Process** policies are the Board's own rules for how it will function. The Board will evaluate its own work against these standards.

Policy Type	<b>Governance Process</b>
Policy Number	<b>GP-1</b>
Policy Title	<b>Board Purpose</b>

The Board of Directors represents, leads, and serves the organization's members and holds itself accountable to them by committing to act in members' best interests and by ensuring that all Board and organizational action is consistent with law and the Board's policies.

The Board's purpose is to assure that the organization achieves the results described in the Board's Results policies and that it operates according to the values expressed in the Board's Operational Expectations policies.

## IAVM Governance Policies

Policy Type	<b>Governance Process</b>
Policy Number	<b>GP-2</b>
Policy Title	<b>Governing Commitments</b>

The Board will govern lawfully with primary emphasis on Results for its members; encourage full exploration of diverse viewpoints; act with integrity as ethical leaders; focus on governance matters rather than administrative issues; observe clear separation of Board and CEO roles; make all official decisions by formal vote of the Board; and govern with long term vision. The Board will conduct its official business with social and fiduciary responsibility that encourages trust as outlined in the IAVM Code of Ethics and Rules of Conduct (GP-6).

Recognizing that diversity is an inherent characteristic to a strong and vital community, the Board is committed to working intentionally to create an organization whose members, volunteers, educators and leadership includes people of all races, genders, ages, sexual identity and disability status.

- 1 The Board will function as a single unit. The opinions and strengths of individual directors will be used to the Board's best advantage, but the Board faithfully will make decisions as a group, by formal vote. No officer, individual, or committee of the Board will be permitted to limit the Board's performance or prevent the Board from fulfilling its commitments.
- 2 The Board is responsible for its own performance and commits itself to continuous improvement. The Board will assure that its directors are provided with training and professional support necessary to govern effectively.
- 3 The Board will carry out a self -assessment with full, honest and timely participation by all directors. The assessment will include evaluation of the Board as a whole, based on Governance Process and Board-CEO Delegation policies.
- 4 As a means to assure continuous improvement, the Board regularly and systematically will monitor all policies in this section, and will assess the quality of each meeting by debriefing the meeting following its conclusion.
- 5 To ensure that the Board's meetings are conducted with maximum effectiveness and efficiency, directors will:
  - a come to meetings adequately prepared

## IAVM Governance Policies

- b communicate openly and respectfully with each other and with staff
  - c support the Chair's efforts to facilitate an orderly meeting
- 6 The Board will use a consent agenda as a means to expedite the disposition of routine matters and to dispose of other items of business it chooses not to discuss.
- 7 The Board will direct the organization through Results and Operational Expectations policy. The Board's major focus will be on the Results expected to be achieved by IAVM, rather than on the decisions made by the CEO and staff to achieve those results.

The Board, by majority vote, may revise or amend its policies at any time.

To build trust among directors and to ensure an environment conducive to effective governance, directors will:

  - a Any loyalty a director may have as a member
  - b Loyalty based on membership on other boards or staffs
  - c Identification with any specific member sector or geographical area

The foregoing provision of policy notwithstanding, members may advance concerns on behalf of their respective sector or geographical identities, but it is understood that each member will consider the interests of IAVM to be paramount.

Policy Title	<b>Committee Principles</b>

The Board may create committees if they are deemed helpful to assist the Board in the performance of its responsibilities. If committees are established, they will be used exclusively to support the work of the Board as described in Policy GP-3, and will never be created or used to assist the CEO in any operational area.

- 1 Board committees and other such entities by whatever name created by the Board will not be used to direct, advise, assist or oversee the staff. Committees customarily will prepare recommendations for Executive Committee consideration. Board committees will have no authority over staff, and may exercise demands on staff time and organizational resources only to the extent authorized in this policy.
- 2 The CEO will serve in an ex-officio and non-voting capacity to support committees in their work.
- 3 Board committees may not speak or act for the Executive Committee unless specifically authorized. The responsibilities and authority of all Board committees are carefully stated in writing to assure that committees fully understand their duties and extent of authority, and to assure that committee work will not usurp or conflict with the Board's own authority or conflict with authority delegated to the CEO.
- 4 All Board committees are created for one-year terms and are subject to annual reauthorization at the discretion of the Board of Directors.
- 5 In the selection of at-large members, the chair will strive for diversity of background, industry experience and venue type to represent a cross section of members of the Association as well as to select members with necessary skill sets to contribute to the committee.

Policy Title	<b>Cost of Governance</b>

Because poor governance costs more than learning to govern well, the board will invest as it deems necessary in its governance capacity.

Accordingly:

- 1 Board skills, methods, and supports will be sufficient to assure governing with excellence.
  - a Training and retraining will be used liberally to orient new board members and candidates for board membership, as well as to maintain and increase existing member skills and understandings.
  - b Outside monitoring assistance will be arranged so that the board can exercise confident control over organizational performance. This includes, but is not limited to, a fiscal audit.
  - c Outreach mechanisms will be used as needed to ensure the board's ability to listen to member viewpoints and values.
- 2 Costs will be prudently incurred, though not at the expense of endangering the development and maintenance of superior governance capability.

## IAVM Governance Policies

Policy Type	<b>Governance Process</b>
Policy Number	<b>GP-9</b>
Policy Title	<b>Process for Addressing Board Member Violations</b>

The board and each of its members are committed to faithful compliance with the provisions of the board's policies. The board recognizes that its failure to deal with deliberate or continuing violations of its policies risks the loss of confidence in the board's ability to govern effectively. Therefore, in the event of a member's mistaken, willful and/or continuing violation of policy, the board will address the issue by the following process:

- a. Conversation in a private setting between the member considered to be in violation and the board chair or other individual member;
- b. Discussion in a private session between the member considered to be in violation and the full board;
- c. Possible removal by the board from any leadership or committee positions to which the offending member has been appointed or elected;
- d. Censure of the offending member of the board as a means of separating the board's focus and intent from those of the offending member.

## IAVM Governance Policies

### Governing Policies of the Board of Directors

*Board-CEO Delegation policies describe the relationship between the board and the CEO, the CEO's authority and how the CEO will be evaluated. Based on authority delegated by the Board of Directors to the Executive Committee, it is understood by the Board, the Executive Committee and the CEO that the CEO reports directly to the Executive Committee, which will act on behalf of the Board in all matters defined by policy in this section. All policy references to "Board" in this section are understood to be references to the Executive Committee rather than to the full Board of Directors.*

Policy Type	<b>Board CEO Delegation</b>
Policy Number	<b>BCD-1</b>
Policy Title	<b>Single Point of Connection</b>

The CEO is the Board's sole point of connection to the operational organization. The Board will direct the operational organization only through the CEO.

## IAVM Governance Policies

Policy Type	<b>Board CEO Delegation</b>
Policy Number	<b>BCD-2</b>
Policy Title	<b>Single Unit Control</b>

The Board will direct the CEO only through official decisions of the full Board.

- 1 The Board will make decisions by formal, recorded vote in order to avoid any ambiguity about whether direction has been given.
- 2 The CEO is neither obligated nor expected to follow the directions or instructions of individual directors, officers or committees unless the Board has specifically delegated such exercise of authority.
3. Should the CEO determine that an information request received from an individual director or a committee requires a material amount of staff time or is unreasonable, the CEO is expected to ask that the committee or the director to refer such requests to the Board for authorization.

## IAVM Governance Policies

Policy Type	<b>Board CEO Delegation</b>
Policy Number	<b>BCD-3</b>
Policy Title	<b>Staff and Contractor Accountability</b>

The CEO is responsible for all matters related to the day-to-day operation of the organization, within the values expressed by the Board in policy. All staff members and contractors are considered to report directly or indirectly to the CEO.

- 1 The Board will not participate in decisions or actions involving the hiring, evaluating, disciplining or dismissal of any contractor hired by the CEO or of any employee other than the CEO.
- 2 The Board will never give direction to any contractor hired by the CEO regarding a contract with the CEO, or to any employee other than the CEO.

## IAVM Governance Policies

Policy Type	<b>Board CEO Delegation</b>
Policy Number	<b>BCD-4</b>
Policy Title	<b>Authority of the CEO</b>

The Board will provide direction to the CEO through written policies that define the organizational results to be achieved and define operational conditions and actions to be accomplished or avoided.

- 1 The Board will develop Results policies instructing the CEO to achieve desired results for those served by the organization.
- 2 The Board will develop Operational Expectations policies which will express the Board's values about operational conditions and actions. Certain of these values will be expressed positively to assure that the stated actions occur and the identified conditions exist, and will be stated as directives. Certain other values represent actions and conditions that are to be avoided, and will be stated prohibitively.
- 3 As long as the CEO uses any reasonable interpretation of the Board's Results and Operational Expectations policies, the CEO is authorized to establish any additional administrative policies or regulations, make any decisions, establish any practices and develop any activities the CEO deems appropriate to achieve the Board's Results policies. The CEO is not expected to seek Board approval or authority for any such decision falling within the CEO's area of delegated authority.

The Board may change its Results and Operational Expectations policies, and in so doing shift the boundary between Board and CEO areas of responsibility.

The Board will respect and support any reasonable interpretations of its policies by the CEO, even though CEO decisions may not be the decisions the Board or its directors may have made.

## IAVM Governance Policies

Policy Type	<b>Board CEO Delegation</b>
Policy Number	<b>BCD-5</b>
Policy Title	<b>CEO Accountability</b>

The Board considers CEO performance to be identical to organizational performance. Organizational accomplishment of the Board's Results policies and operation according to the values expressed in the Board's Operational Expectations policies will be considered successful CEO performance. These two components define the CEO's job responsibilities, and are the basis for the CEO's performance evaluation.

- 1 The Board will determine organizational performance based upon a systematic monitoring process.
- 2 The Board will acquire monitoring data on Results and Operating Expectations policies by one or more of three methods:
  - a By internal report, in which the CEO submits information that certifies and documents compliance with Operational Expectations or reasonable progress on Results;
  - b By external review, in which an external third party, selected by the Board, assesses compliance with Operational Expectations or reasonable progress on Results;
  - c By Board inspection, by which the whole Board or a committee duly charged by the Board formally assesses compliance with Operational Expectations or reasonable progress on Results.
- 3 The consistent performance standard for Operational Expectations policies shall be whether the CEO has:
  - a Reasonably interpreted the policy and its subparts;
  - b Complied with the provisions of the Board policy being monitored.
- 4 The consistent performance standard for Results policies shall be whether the CEO has:

## IAVM Governance Policies

- a Reasonably interpreted the policy and its subparts;
  - b Made reasonable progress toward achieving the Board's defined Results policies.
- 5 The Board will make the final determination as to whether CEO interpretation is reasonable, whether the CEO is in compliance and whether reasonable progress has been made. In doing so, the Board will apply the "reasonable person" standard.
  - 6 All policies that instruct the CEO will be monitored according to a schedule and by a method determined by the Board and included in the Board's annual work plan. The Board may monitor any policy out of this defined sequence, if it is determined by a majority of the Board that conditions warrant monitoring at times other than those specified by the annual schedule.
  - 7 Each July the Executive Committee will conduct a formal evaluation of the CEO. The evaluation will be based upon data collected during the year from the monitoring of Results and Operational Expectations policies. The Board will prepare a written evaluation document.

The evaluation document will consist of:

- 1 A summary of the data derived during the year from monitoring the Board's Results and Operating Expectations policies;
- 2 Conclusions based upon the Board's prior action during the year relative to the CEO's reasonable interpretation of each Results policy and whether reasonable progress has been made towards its achievement;
- 3 Conclusions based upon the Board's prior action during the year relative to whether the CEO has reasonably interpreted and operated according to the provisions of the Operating Expectations policies;
- 4 Decisions regarding the CEO's compensation.

The purpose of the annual evaluation of the CEO is to summarize the actions previously taken by the Board as it monitored Results and Operational Expectations policies during the year, and to draw conclusions on that basis.
