

Join us for a virtual education conversation with
Metallica Production Manager, John “Lug” Zajonc and
San Francisco Giants Executive Vice President of Administration, Alfonso Felder!

Tuesday, September 29th, 2020
3:30 PM – 4:30 PM PST

After countless calls of ever-changing information and hypothetical situations planning for our return to events, we’re excited to bring you a session focused on lessons learned from unique “events” that have actually been hosted during the pandemic.

From *Metallica*’s secret concert filming for release in drive-ins throughout the country to the Giants’ modified baseball season, our esteemed speakers will share their experience planning and executing events these past few months. We’ll hear about what worked, what didn’t, insights on the future of our industry, and other valuable information relevant to all venue types.

**Registration is complimentary. After registering, you will receive a confirmation email containing instructions on how to join the Zoom meeting.*

Following the session, there will be an optional social happy hour to help bring our Nor Cal community together.

We look forward to seeing you there!
